Testing conducted by the Texas A&M AgriLife Extension Forage Testing Laboratory at Texas A&M University, College Station

PROGRAM

This year the 42nd Bosque County Hay Show has taken on the mindset the show must go on under our COVID-19 restrictions. This year alone there will be no live educational event.

That said, 80 plus samples were entered into this year's hay show contest. The committee has worked hard to secure donations to support the 2021 Bosque County Hay Show Scholarship Program. This scholarship program has provided 366 youth of Bosque County with over $217,850 over the years.

Congratulations to each of the award winners and thank you to all the committee members and producers….Until we can meet again in person.
