Listed below are upcoming educational events offered by Texas A&M AgriLIFE Extension Service:

- ♦ Brazos Valley Forage and Soil Testing Campaign – ***Now through November 17, 2017 – LAST CHANCE (Information Packet Attached)***
- ♦ Multi-County New Landowner Educational Series – HOT TOPICS – Colorado County Fairgrounds – ***November 17, 2017 (Flyer Attached) (CEUs)***
- ♦ Pasture Management for Success – Washington County Fairgrounds Sales Facility – ***December 1, 2017 (3 CEUs)***
- ♦ Washington County Feral Hog Landowner Abatement Assistance Program – ***Now through January 15, 2018 (Form Attached)***
- ♦ Mill Creek Watershed Planning Meeting – Bleiberville Volunteer Fire Department – ***December 12, 2017***

Mark Your Calendar for Future Events – More Information Coming Soon

- ♦ Washington County Pecan Show – Washington County Fairgrounds Event Center – ***November 28-29, 2017 (Information Packet Attached)***
- ♦ Spring Ag Conference – Washington County Fairgrounds Sales Facility – ***February 2017 (5 CEUs Pending TDA Approval)***

Brazos Valley Soil & Forage Testing Campaign – Through November 15, 2017 (Information Packet Attached)

LAST CHANCE – samples can be submitted to the Extension Office through Friday, November 17, 2017.

The Brazos Valley ***Soil and Forage Testing Campaign*** are underway in Washington County and will run October 15 – November 15, 2017. This campaign is made possible through the support of the Washington County Beef and Forage Committee and in cooperation with the Texas A&M AgriLife Extension Soil, Water, and Forge Testing Lab in College Station.

Soil sample bags and submittal forms for both the soil and forage testing campaign are available at four locations across the county including:

- The Washington County Extension Service located at 1305 East Blue Bell Road in Brenham
- Cattlemen's Supply Inc located at 1850 Texas 105 in Brenham
- Ludemann Feed and Farm located at 6703 Old Mill Creek Road in Brenham
- Brenham Produce located at 1103 South Market in Brenham

All soil samples, forage samples, and forms must be returned to the Washington County Extension office to receive the discounted pricing. Full payment by check payable to the Washington County Beef and Forage Committee is due when the samples are submitted to the Extension office. Extension office staff will deliver your samples to the testing lab. Sample results will be returned to the Extension office and then distributed by mail to you.

Soil Campaign

The ***Soil Testing Campaign*** offers agricultural producers the opportunity to have their soil tested to determine its current fertility and receive a recommendation to improve the fertility required to produce the best crop possible. This campaign is only intended for soil analysis on agricultural land used for grazing and/or hay production. Please do not submit lawn or garden soil samples.

The cost for a routine analysis will be $7.00 and a routine analysis with micronutrients will cost $14.00.
In exchange for the reduced testing cost, some information regarding your agriculture land will be required. The information you will need to provide includes the amount of acres the sample represents, your planned fertilizer application for the coming year, what you are growing, and whether or not the soil has been sampled in the past three years.

Forage Testing

In addition to the soil testing, producers have the opportunity to submit ***Forage Samples*** for analysis during this campaign at a reduced fee. Producers will be asked to submit a quart size sample in a paper sack or envelop with information on sample ID and forage type. All hay samples will be analyzed by NIR for protein, ADF, NDF, TDN and an estimate of digestibility. NIR Analysis has been expanded to include all grass crops.

If you have any questions concerning the Brazos Valley Soil Analysis Campaign, please contact the Washington County Extension office at (979) 277-6212.

Multi-County New Landowner Series – Colorado County Fairgrounds – November 17, 2017 – (Flyer Attached)

The Multi-County New Landowner Education program is a series of 8 informational meetings, seminars, and field days designed to make new landowners in Austin, Colorado, Fayette, & Washington Counties aware of what types of agricultural enterprises are best for their property. Participants in the program will hear from experts in a variety of fields in agriculture about best management practices that can be implemented on their own property. This innovative program assists new landowners in understanding the concepts of rural living. Participants in the program are given exposure to ideas on raising livestock and horses, plant identification, fence building, applying pesticides, soil testing, stock pond management, pond construction, fruit and nut production, rain water harvesting, turf management, and much more. The program also serves as a way for new residents of the four counties to network and meet new people in their communities, find out what can be done on their land, what operations can be successful, and possibly what opportunities they have to serve the community.

The programs will be held on the ***third Friday of the months of February through May and August through November.*** Each month's meeting will be held at different locations in one of the four counties. The meetings begin at 1:30pm and will last between 4 and 5 hours depending on the topic and possible tour stops. The cost for the program series is $125.00 per person, $200.00 per couple for all eight meetings, $20.00 per person per meeting. Continuing Education Units (CEU's) for pesticide applicators will be offered as they are applicable. A great selection of refreshments will be provided at each session. Participants who sign up for the **entire series** will receive a notebook at the beginning of the series to fill as we progress through the program with handouts and reference material that will be useful as they move forward with improvements on their property.

November 17th – Emerging Issues – Feral Hog and Nuisance Animal Management & Fence Building Demonstration – Colorado County Fairgrounds

The final session in the series is scheduled for ***Friday, November 17, 2017*** at the Colorado County Fairgrounds located at 1146 Crossroads Blvd. in Columbus. This session will focus on HOT TOPICS as designated by series attendees and interested participants. Management of Feral Hogs and Nuisance Animals is always a topic of frustration for landowners, we will spend a portion of the day discussing options for management and providing an insight to successful tools for landowners. Additionally, we will have a fencing demonstration for participants to take part in and learn the fundamentals of proper fence building.

The 2017 Multi-County New Landowner series is generously supported by:
Citizens State Bank – Somerville ---------- Capital Farm Credit – LaGrange and Bellville!
Be sure to remember them for all you banking and lending needs. Additional contact information for each of these sponsors will be provided at the monthly New Landowner Sessions.

For more information please contact the Texas A&M AgriLife Extension Office in Austin, (979-865-2072), Colorado County (979-732-2082), Fayette (979-968-5831) or Washington (979-277-6212). Registration materials and more information can also be found on our website, http://agrilife.org/coastalbend/program-areas/new-land-owner-information/

Pasture Management for Success – Washington County Fairgrounds Sales Facility – December 1, 2017 (3 CEUs)

The Washington County Extension Office is pleased to offer the upcoming Pasture Management for Success Program on ***Friday, December 1, 2017*** at the Sales Facility on the Washington County Fairgrounds.

This program is designed to answer some of the most common pasture and forage management questions to help producers better manage their resources. Participants who took part in the annual soil and forage testing campaign will receive their sample results at the event. The topics of the day will focus on interpreting soil and forage testing results, managing soil health and fertility, and managing pastures from start to finish. Anyone who has that troublesome pasture that they aren't sure where to begin with management is encouraged to take advantage of this program. We will cover the fundamental elements of managing resources with economics, stewardship, and performance in mind.

For anyone with a pesticide applicator license this program will offer three (3) hours of continuing education credits (1 IPM, 2 General) for those who sign-in at the beginning of the event and remain through the conclusion of the program. As a reminder Private Pesticide Applicators are required to earn 15 hours of continuing education (CEUs) every 5 years with a minimum of 2 hours in IPM and 2 hours in Laws and Regulations. Be sure to check the expiration dates on these licenses to ensure the hours have been earned prior to the expiration.

The event will begin with registration at 1:00pm and the program will follow at 1:30pm. Registration for the event is now open and will be $15/person through November 28th and $20/person at the door.

For more information and to register for the event please call the Washington County Extension Office at (979) 277-6212 or visit us online at http://washington.agrilife.org

Washington County Feral Hog Landowner Abatement Assistance Program (Form Attached)

In May of 2016 Washington County participated in the Texas Department of Agriculture's (TDA) County Hog Out Management Program (CHOMP) and successfully qualified for grant funding to offer an additional bounty, contest, educational program, and landowner assistance program. These funds were used to provide a bounty program in Washington County from October 1, 2016 through May 31, 2017. Following the conclusion of the bounty program the remaining funds have been allocated to support a Feral Hog Abatement Cost-Share Program with Washington County Landowners. Each year it is estimated that feral hogs do more than $500 million dollars in damage to land across the state of Texas. Efforts such as these offer a great opportunity for Texans to band together to protect our property from feral hogs and the immense amount of damage they cause.

Beginning November 1, 2017 through January 15, 2018 (or until funds are depleted) Washington County will offer a cost-share program for landowners to receive assistance related to feral hog abatement and management. The cost-share rate will be $75 from landowners and $175 from the TDA grant funds for a total of $250 per day (8 hours of services) per qualifying request. Qualifying property must be within Washington County and the claimant must be a Washington County resident or landowner. The Assistance Program will be actively managed by Texas Wildlife Services Department (TWS) with Texas A&M AgriLife Extension Service. All requests will comply with TWS rules and regulations in order to be included in the cost-share program.

Requests will be honored on a first come, first serve basis and during the initial application timeframe only one request per landowner will be accepted. Should funds remain available for the program addition requests will be considered. Anyone wishing to participate is asked to complete the required forms, have the forms notarized within the rules and timeframe in the cost-share program details, and submit payment to the Washington County Courthouse. Completed forms and payment may be delivered to the Washington County Court House to the attention of Commissioner Hueske.

For more information please contact Commissioner Luther Hueske at wccpct2@hotmail.com or by phone at (979) 277-6200. To pick up forms please visit the Washington County Court House or the Washington County Extension Office. Forms can also be found online at http://www.co.washington.tx.us/ or http://washington.agrilife.org/

Upcoming Mill Creek Watershed Meeting to plan 2018 Implementation Activities

The Mill Creek Watershed Partnership will be holding their quarterly public meeting ***Tuesday, December 12, 2017*** from 6:00pm-7:30pm at the Bleiblerville Volunteer Fire Department hall. The primary objective of this meeting is to plan out implementation activities for the coming year.

"There are many exciting opportunities coming to the area and we hope many will join us to plan out the coming year," says Jennifer Cary, Watershed Coordinator with Texas A&M AgriLife Extension Service. The meeting will also include voting on a Partnership logo, update on water quality monitoring.

During the meeting, we will also provide updates on current implementation efforts within the Mill Creek Watershed, including water quality testing. The Watershed Coordinator, Jennifer Cary and a representative from the Texas State Soil and Water Conservation Board (TSSWCB) will be there to answer questions about implementation efforts through the Watershed Protection Plan (WPP).

If you wish to learn more about the Mill Creek Watershed Partnership or have questions, please visit our website at http://millcreek.tamu.edu or contact the Mill Creek Watershed Coordinator, Jennifer Cary: (979) 862-8070 or email her at millcreek@tamu.edu.

Funding for this effort is provided through a federal Clean Water Act §319(h) Nonpoint Source Grant administered by the Texas State Soil and Water Conservation Board from the U.S. Environmental Protection Agency.

As always please call or email if you have questions,
Kara

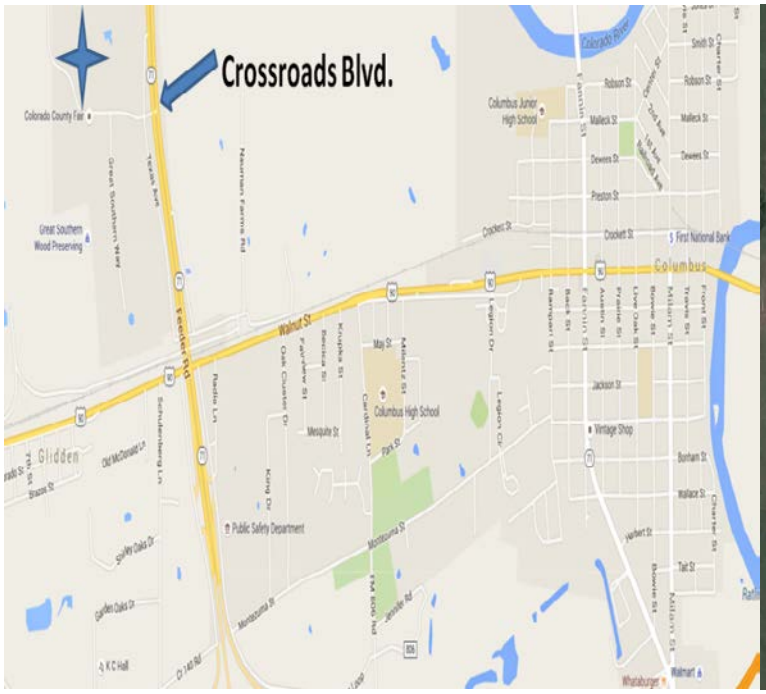
Multi-County New Landowner Educational Series – Introduction

November 17, 2017 – Colorado County Fairgrounds HE Building in Columbus
1146 Crossroads Blvd, Columbus, TX 78934



From Columbus:
From downtown Columbus, head west on Hwy 90/Walnut St. towards Weimar. At the edge of town, follow signs for La Grange and Hwy 71 West. This means you will be turning left BEFORE going beneath the overpass. The red road signs at the intersection says "Columbus loop". Take this to the first yield sign and turn right to follow the sign for Hwy 71 West. The will put you on Hwy 71, heading towards La Grange. Drive approximately 0.7 miles to Crossroads Blvd. Turn left on Crossroads Blvd. Stay on Crossroads Blvd approximately 0.7 miles until it turns to gravel road. Take this gravel road to the open gate in the fence and you will see the Exhibit Hall.

From La Grange:
Take Hwy 71 East out of La Grange, heading towards Columbus. Once you cross over the Colorado River Bridge, continue approximately 0.5 miles, where you will see Crossroads Blvd. on your right. Turn right onto Crossroads Blvd. Stay on Crossroads Blvd approximately 0.7 miles until it turns to gravel road. Take this gravel road to the open gate in the fence and you will see the Exhibit Hall.

From Bellville:
Take HWY 36 south out of Bellville. Turn right at the Exxon station onto FM 2429, heading south/southwest. Travel 3.6 miles until 2429 intersects with FM 949. Turn right and head West on FM 949. Travel 3.5 miles to the intersection and 4-way stop of 949 and FM 1094. Continue straight through the stop sign, staying on 949. Travel 12 miles to the intersection of FM 949 and I-10. Turn right and follow the signs to merge onto I-10 West. Travel on I-10 West approximately 9 miles to exit 695 and signs leading you to Hwy 71 West towards La Grange. From the exit you travel approximately 1.2 miles to the Crossroads Blvd. There is a green road sign indicating that Crossroads Blvd. will be on your left. Turn left on Crossroads Blvd. Stay on Crossroads Blvd approximately 0.7 miles until it turns to gravel road. Take this gravel road to the open gate in the fence and you will see the Exhibit Hall.

From Brenham:
The quickest route is to leave Brenham, heading south on Hwy 36. Just a little ways out of town, look for signs for FM 109. Turn right at the Phillips 66 gas station onto FM 109. It is a two-lane, somewhat winding road, but a pleasant drive. Travel approximately 34 miles to the intersection of FM 109 and Business Hwy 71. Note that along the way, you travel through the town of Industry, where you make one stop at a 4-way intersection; continue straight through this intersection. A while later you pass through the town of New Ulm; continue straight through New Ulm. A short ways past New Ulm, FM 109 comes to a stop sign and a 4-way intersection in Frelsburg. Note that at this stop sign, FM 109 makes a left-hand turn. Turn left to follow it to the intersection with Business Hwy 71. At the stop sign of FM 109 and Business 71, turn right and drive approximately 2 miles, where you will come to Hwy 71. Go underneath the overpass and follow the sign for Hwy 71 East. Turn left and then merge onto Hwy 71 East. Within a mile you will cross over the Colorado River bridge. Once you cross over the Colorado River Bridge, continue approximately 0.5 miles, where you will see Crossroads Blvd. on your right. Turn right onto Crossroads Blvd. Stay on Crossroads Blvd approximately 0.7 miles until it turns to gravel road. Take this gravel road to the open gate in the fence and you will see the Exhibit Hall.
