

## Austin County 4-H News

Spring 2015

---

### Agent's Corner

By the time this newsletter reaches you, I hope that this Texas weather has straightened out. I laugh because we both know that will never happen. In the last week I have experienced 85 degree weather and 35 degree weather all in a period of three days as I traveled to the San Antonio Livestock Show and prepare now for the Houston Livestock Show.

Spring is an exciting time of year, especially in the Extension Office, but I wanted to take some time to say thank you and farewell to Dr. Philip Shackelford. Philip will be missed by many here in Austin County as he starts a new chapter of his life and begins his new role as Extension Specialist and Assistant Professor at Texas A&M University. I have known Philip since he moved to Austin County in 2000. While I did not participate as heavily in 4-H as I did in FFA, I knew Philip and have several distinct memories that I can truly say shaped my life and have gotten me to where I am today; and I'd like to share one with you.

In March, 2001, I was at the Washington County Fairgrounds during the Houston Livestock Show Pig Sift. Being 14, I was trying to figure out what I wanted to do when I grew up. After spotting Philip, I started asking questions about what exactly an agent does and how does one become an agent. Like a true agriculture enthusiast, he took the time to talk to me. I found what he shared with me to be very interesting. After that day, anytime Philip saw me he would take the time to speak to me. From that one brief moment, a relationship was built that lasted through my high school years and well into my college years. He would continually asked me if I was thinking about coming to work for Extension and encouraged me to finish my Master's Degree so I would have that out of the way. After completing my undergraduate degree, I began teaching Ag. After six years of teaching, I received a message from Philip telling me that Austin County was going to have a position for a 4-H agent. Eagerly, I filled out the required application and was hired. If it were not for Philip taking the time to talk to a curious 14 year old kid, I would not be here today. I have had the honor and privilege to know Philip as a 4-H member, a friend, a co-worker and a colleague and can honestly say I have never known anyone finer than Dr. Philip Shackelford. Thank you Dr. Shackelford for everything you have done for Austin County AgriLife Extension, Austin County 4-H, and for everything you have done for me.

4-H is open to all youth, between the ages of 9 and 19 (or in the third grade), regardless of socioeconomic level, race, color, religion, disability or national origin. For more information, contact the County Extension Office.
