Dear Teacher,

Congratulations on your first step towards a new and exciting year of curriculum enrichment! The **Hatching in the Classroom** 4-H School Curriculum Enrichment program is intended as a cooperative effort between a school and the Texas A&M AgriLife Extension Service. It is designed to supplement and enrich classroom curriculum and compliment TEKS, not replace the required curriculum. The program helps youth develop needed life skills and address critical issues of life through hands-on applications.

Enclosed in this packet you will find:

1. Curriculum Enrichment Calendar
2. Teacher Guidelines
3. Incubator Manual
4. Teacher's Curriculum Enrichment Guide
5. Group Enrollment Form to be filled out at the beginning of the project
6. Student Evaluations (pre and post test)
7. Teacher Curriculum Enrichment Evaluation
8. Parent letter – please copy and provide to each family (if you have not already done so)
9. Invitation to Join 4-H flyers – please copy and provide to each student
10. What is 4-H? lesson

Thank you for believing in our children! They deserve a fulfilling and rewarding education. We truly appreciate the opportunity to assist you in that process.

Sincerely,

A handwritten signature in cursive script that reads "Rachel Hall".

Rachel Hall
Program Assistant
