Fence-Line Weed Management Mixes

Woody and Herbaceous Plants

4 lbs Glyphosate (1gallon of a 4 lbs AI/gallon material), 1 lb triclopyr (1 quart Remedy or equivalent), 4 lbs diuron (1 gallon of a 4L or 5 lbs of an 80 DE) and 1 quart non-ionic surfactant per 100 gallons of water. Spray to wetting.

Herbaceous Plants

4 lbs glyphosate (1 gallon of a 4lb AI/gallon material), 1 lb 2,4-D (1 quart of a 3.8 lb AI/gallon material), 4 lbs diuron (1gallon of a 4L or 5lbs of an 80 DF) and 1 quart of non-ionic surfactant per 100 gallons of water. Spray to wetting.

Use caution to avoid contact with desirable plants. Always read and follow label directions.

Thanks, to James Locke from the Noble Foundation for sharing these mixes.
