Range Mgmt. Workshop
- May 17, 2011  
Ranchers Round-up  
(Sonora Tx)
- Grazing Workshop  
July 12, 2011

I have posted a write up and link just below this. I want to ask for your help. If you would please go to the following website and post your ideas and concerns on this website it will help me better identify my education needs for the future. All of your information will remain confidential, I won't even be able to see who posted what. If you will go to this website by April 1, 2011 and post your comments I would be greatly indebted to you. This is something I need your personal feedback on so that I may continue to bring you quality programs. I will be posting this in the newspaper soon. Thank you for your time and continued support towards the Edwards County Extension Service.

Welcome to the Texas AgriLife Extension Service Issue Identification resource center. The process of identifying relevant issues in each of Texas' 254 counties is led by the Leadership Advisory Board (LAB) in each county. The LAB is a volunteer group, comprised of community leaders passionate about the Extension mission; "improving the lives of people, businesses, and communities across Texas and beyond through high-quality, relevant education". Your input is valuable to us as we work to identify and prioritize the issues that Texas AgriLife Extension will be addressing in each county in the coming years
