Feeder Calf Buyers: 15

Calf market had a softer under tone this week. Calf buyers are having to change over and adjust to the increasing numbers of new crop calves, Some of those getting the cattle are not ready to take on the increased health problems with fresh weaned calves.

### **Summary**

**Compared to last week: all feeder steers and heifer weight class averages ended fully \$3 to \$5 lower with some lower hard to place cattle ending \$5 to \$8 weaker**

**Slaughter cow and bull figures gain some of their recent week losses back and finished \$ 2.50 stronger**

**No doubt the market is witnessing its normal calf transition period from old calves to the "New crop" calves. Demand figures seasonally adjust as the feeders get ready for their new Purchases. This along with the unseasonably cold and flooding up North have both the grain And livestock futures unstable as the board the past few days gives witness to this.**
