Compared to last week all feeder steers and heifer price averages on all weight classes ended \$4-\$7 lower. This is a reflection on feeder futures which have lost \$15 per cwt in the last 3 weeks. On a positive note, cattle on feed report came out yesterday showed larger placement in April, but not as big as was anticipated.

Compared to last week; all feeder steers and heifers price averages on all weight classes ended fully \$4 to \$7 lower

Slaughter cows showed pressure and ended \$2.50 lower while the slaughter bulls ended mostly even with last week's figures

Today's negative ending board continues to support the free fall on all feeder contracts as we have witnessed a \$17 cwt drop on May feeders within the last month.

Feeder calf prices has become somewhat stifled as the market demand shows trader hesitancy
