Compared to last week: all classes of feeder steers and heifer averages ended fully steady to \$3 higher on certain classes. The slaughter cows finished around \$2 higher while the slaughter bulls ended \$3 lower with no high yielding bulls being offered.

Even with the stock market and the futures market showing significant recovery this past week the dark cloud of the Covid-19 along with the anemic oil prices continues to cast a gloom in the feeder calf demand as uncertainty continues to rule over any major optimism.
