Compared to last week: all classes of feeder steers and heifer averages ended from steady on the lighter classes to \$3 lower on the heavier classes. Slaughter cows ended \$2 stronger with the slaughter bulls ending \$3 higher.

Even with last week's slaughter rate of 658,000, the huge backlog of market ready fats continue to pressure live prices and pockets of drought are beginning to pop up across the summer grazing areas. These negatives along with economical pressures continue to affect our feeder calve prices.

Cattle on feed report came out yesterday. Really no surprises placements were down and marketing's were materially under last year leaving the cattle on feed flat. Pressure is on feeder cattle until we work through the back up of heavy cattle coming out of yards. Carcass weights are nearly 50 lbs heavier putting more meat in market.

*We appreciate your business*
