Feeder Calf Order Buyers.....19

Compared to last week: all weight class average prices of both feeder steers and heifers ended mostly steady to firm except for some lower grade quality classes that showed to be several dollars weaker. Slaughter cows and slaughter bulls both ended around \$3 lower.

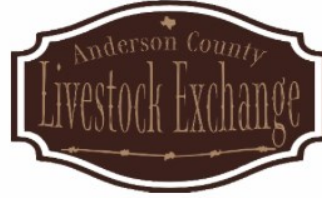

Today's board closing regained some of what it lost yesterday due to the news that the "derecho storm in Iowa had destroyed 13 million acres of corn or about 1/3 of the state's corn crop. The rise in market prices the past several weeks also reflected some recent rains that repaired and help extend grazing for many cattle that were facing a forced movement.

Market was softer on calves as the futures market lost ground Thursday and Friday. The cattle on feed report were released at 3:00 pm yesterday and placements in July were 11% more than a year ago. A lot of the cattle that were held during the April to June period came to the feedlots.
