*Compared to last week: all weight class average prices of both feeder steers and heifers ended uneven to steady. Slaughter cows were \$3 stronger with the slaughter bulls ending \$4 higher. Last Friday's cattle on feed report was bearish resulting in Monday's red ink figures. Despite this, today's market was brisk with good activity on all the front-end classes of feeder calves.*

*Both slaughter cows and bulls were higher as the packers competed to secure inventory in anticipation of slower movement into the market arenas due to the hurricanes.*

OKC reported their market \$6 to \$10 lower compared to a week earlier and our market showed the same drop. Dry weather to the North and West is causing stocker buyers to back up. Corn went up this week raising the cost of feed on yearlings.
