

Grazing & Range Nutrition Workshop

August 29, 2018 at Sutton County Civic Center

On-site registration begins at 8:30 a.m. and the program starts at 9

When it's dry, we either feed or sell livestock.

Either way, questions remain about the carrying capacity of our rangeland or if we're meeting the nutritional and mineral needs of those livestock.

To that end, Texas A&M AgriLife Extension Service will offer a Grazing & Range Nutrition Workshop on August 29th at 8:30 a.m. at the Sutton County Civic Center.

Related topics will address meeting water needs and a presentation of the chemistries available to help combat brush encroachment on the ranch..

Topics include:

Assessing Range Condition & Carrying Capacity– Dr. Bob Lyons, Extension Range Specialist

Understanding Livestock Nutrition & Mineral Needs– Dr. Tim Turner, DVM, Southwestern Livestock Mineral, San Angelo

Solar Powered Watering Systems– Southwest Solar Systems

Herbicide Product Lineup– Jordan Symon, Dow Range & Pasture Specialist

Fecal Parasite Sampling Study– Dr. Doug, Tolleson, Sonora Experiment Station

3 CEU's offered (1 IPM, 2 General).

Cost is \$15 per person . RSVP by Aug 24th . Call 325-387-3101 for registration or more information.

Program offered by Texas AgriLife Extension Service

Sutton, Edwards, & Crockett Counties
