

Concho Valley Master Gardeners Annual Plant Sale

APRIL 7, 2018-- 8:00 am - noon or sold out -- TOM GREEN COUNTY 4-H CENTER - HWY 67 N

PLEASE DON'T PLANT YOUR PLANTS THE DAY OF THE SALE!!

Our plants have been growing in a protected environment inside our greenhouse. Your outdoor space presents a new set of conditions: sunlight, wind & cooler temperatures.

Your purchased plants will thrive better if given the chance to "harden off" before being planted in the ground - This consists of a few days outside with the gradual increasing amount of low exposure to sun, wind & cold. It is best to plant them in late afternoon on days of low wind velocity.

Key: * indicates drought tolerant once established

G - grass/grasslike, GC-groundcover, H-Herb, P-Patio Plant, Sh-Shrub/Shrubby/Shrub-like, S-Succulent, T-Tree, V-Vegetable, VI-Vine

Annual - Plants that do not survive the winter
