### LOOKING FOR IDEAS!

I am asking for your help! I would like to host an educational workshop during the month of September pertaining to Horticulture. The last time I hosted a workshop I had 1 participant show up. Would you please contact me with any ideas or topics you might like to see! This is totally up to you! Call me at the number below and give me your suggestions!

Well, it seems that the Anthrax bug has reared its ugly head again in Edwards County! I am not going to make a huge ordeal about the Anthrax situation as it is something we have dealt with in Edwards County before and most of us know that the spore is a part of our everyday lives in and around Edwards County. I would like to encourage you to look into vaccinations for your animals and contact me directly with any questions. I have some great educational materials at my disposal that could be useful if you have any questions. Contact me and I would be glad to get the information to you.

On a lighter note we have some great educational programs coming up on feral hogs! The extension service will be having 4 webinars online during the lunch hours! I have attached the flyers in this news letter and would be glad to host these at my office if a few of you are interested. This is a great way to interact with feral hog expert from around the country! Call me if you would like to attend these events!

if you have questions please call me....
