

**FENCE ROW AND SPOT TREATMENT
 FOR
 BRUSH CONTROL**

★★★★FOR 25 GALLON SPRAY MIXTURES★★★★

Remedy & Grazon P+D:

8 oz. Remedy
 2 pts. Grazon P+D
 1 pt. Surfactant

Weedmaster or Grazon P+D and Diesel:

87.5% Water	21.875	Gallons Water
.5% Emulsifer	16	Ounces
2.5% Weedmaster	2.5	Quarts Weedmaster
10% Diesel Fuel	2.5	Gallons Diesel Fuel

NOTE: Maintain constant agitation during complete mixing procedure. Under good agitation the spray solution should be milky white with no oil layer on top. If an oil layer forms, increase the amount of emulsifier or change to a more effective emulsifier.

Roundup:

1% solution = 1 quart of Roundup in 25 gallons + surfactant

Cimarron and 2,4-D:

.25 ounces	Cimarron
1 quart	2,4-D, Weedmaster or Grazon
8 to 16 ounces	Surfactant

Surmount (For Control of Prickly Pear Cactus)

1 Quart	Surmount Herbicide
8 Ounces	Surfactant

Educational programs conducted by the Texas Cooperative Extension serve people of all ages regardless of race, color, sex, religion, disability or national origin.
