Tune into 99.7 FM KSTAR Country and NOAA Weather Radio for local emergency information

The greatest assets Montgomery County can have are citizens who have taken the time to become prepared.  
Now is the time to prepare!

# 1 Make A Plan...

Make and practice your emergency plan.

Make sure your family has a plan in case of an emergency. Before an emergency happens, sit down together and decide how you will get in contact with each other, where you will go, what you will do in an emergency and include plans for your pets. Also plan for Shelter in Place & Emergency Evacuation with family pets and livestock.

# 2 Build a Kit...

Building a family emergency kit is crucial. During emergencies, you may need to be on your own for a period of time. You may want to consider 3 types of kits: A Go Bag, a Stay At Home Kit, and a Pet Disaster Supply Kit.

Considerations:

- Food and water
- Communication needs
- First Aid needs
- Special Needs
- Pet Needs
- Cash
- Copies of important papers

# 3 Stay Informed...

Staying informed in an emergency situation may be different than normal. In Montgomery County we often have warning of upcoming weather emergencies. However, there are other emergencies which may happen with little to no notice. It's important to keep informed about anything that may come our way.
